MASTERNODE & MINING SOLUTIONS

**WE
OFFER**

**MASTERNODE
& MINING SOLUTIONS**

PRODUCTS

TOP OF THE EDGE TECHNOLOGY

Our goal is to offer an API accessible to everyone in order to host, use or provide their own masternode hosting and mining rig control services at almost cost price. We just charge a small rental fee in ENCO for using our API. We already have a working alpha platform offering hosting solutions for 14 popular masternode coins as a showcase for the technology we're developing. We see the future big and bright and don't plan to stop here, offering our accessible solutions while the user is in full control at almost cost price will make us become market leader in this space.

Masternode Hosting

We offer masternode hosting. Again at almost cost price and with a lot of extra features such as rewards, monitoring, alerts, statistics, etc.

Shared Masternode Hosting

Our end product will support fully automated shared masternode hosting through our platform or API.

ASIC Mining Control Services

Our end product will support fully automated mining rig control support. We already have an working internal product. Always and automatic mine the most profitable coin for your rig!

A + B + C

All in One - API

Short term the platform will be the engine driving the demand for ENCO, long term we plan to have a solid and stable demand for ENCO by offering the above solutions in an all in one API. This will allow everyone, no matter individuals or businesses, to host use, and offer their own masternode & mining solutions against almost cost price by using our technology.

EASYNODECOIN

MASTERNODE & MINING SOLUTIONS

MASTERNODE & MINING SOLUTIONS

MASTERNODE — HOSTING SOLUTIONS

WE OFFER MASTERNODE HOSTING, MONITORING AND CONTROL SERVICES

WORKING PRODUCT

Including advanced statistics, monitoring, reward and altering features. We offer all this for \$0.25 cent a day / masternode which is the cheapest price in the market, in combination with all the mentioned extra features we are sure we are the best choice for masternode investors. Our Alpha platform already offers over 14 coins and we add new coins on a weekly base!

MASTERNODE & MINING SOLUTIONS

MASTERNODE — SHARED HOSTING

OUR PRODUCT WILL SUPPORT AUTOMATIC SHARED MASTERNODE HOSTING

PRODUCT IN DEVELOPMENT

For a number of coins we will provide a fully automated shared masternode hosting option. In this way masternode investors can still profit from the advantages of masternodes without owning the full collateral. After our current alpha platform is completely bug free we will start integrating these shared masternode services.

WORKING IN HOUSE DEMO

This product is still under development but we have a working internal platform running controlling 15 Bitmain S9 and 7 Bitmain L3 Miners.

EASYNODECOIN

MASTERNODE & MINING SOLUTIONS

END PRODUCT — ALL IN ONE API

COMBINING ALL OUR TECHNOLOGY INTO ONE API, ACCESIBLE FOR EVERYONE!

**ALLOWING EVERYONE
TO USE OR OFFER THEIR OWN MINING &
MASTERNODE SERVICES**

**ALL THIS FOR ALMOST COSTPRICE
BUT WITHOUT ANY HEADACHE!**

DEVELOPMENT NOT YET STARTED

Our main goal is not to operate each of our single products, they are just a small stop in between in order to achieve our end goal. Our developed products are a good showcase of what our technology is capable of while it helps us at the same time to improve our product even more. In the end we want to provide an all in one solution which can be used directly by other people to provide and use their own services against almost cost price and without any technical difficulties.

LISTINGS

— WHERE TO FIND & BUY US

AS A START WE WILL LIST ON 1 EXCHANGE & 1 MASTERNODE RANKING SITE

CRYPTOBRIDGE EXCHANGE
MASTERNODES.ONLINE

THIS IS JUST THE START

In a later stadium we plan to list on more and bigger exchanges, however we believe for now to start CryptoBridge is the preferred decentralized exchange.
